## Campingklo

### Description

Whether for **camping**, **fishing**, or on the go **in a van**, our camping toilet is the perfect companion. It can be assembled and ready to use in just a few simple steps.

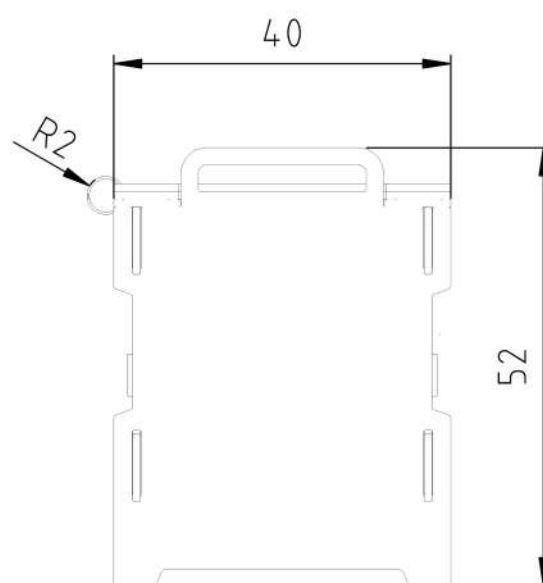

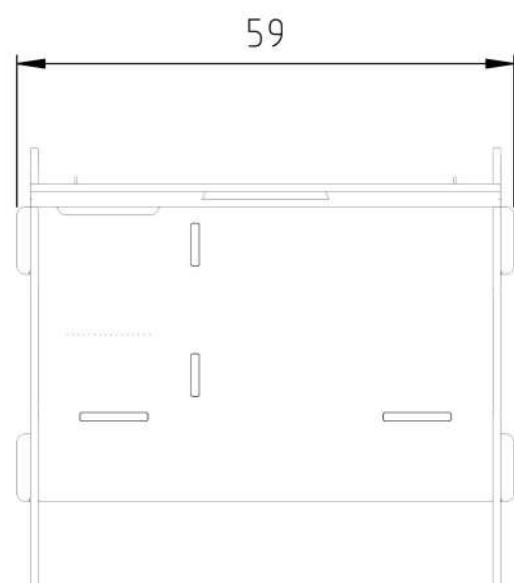

It is **regionally manufactured** using high-quality materials and serves as a full-fledged replacement for conventional water toilets.

Thanks to its clever interlocking system, our camping toilet is extremely versatile, easy to transport, and space-saving to store. For use, you can choose between an 11-liter bucket, sealable toilet bags, or a plastic liner of your choice.

The camping toilet operates without electricity or water, and the materials used allow for easy cleaning, even with a steam cleaner.
