## öklo Klassik

### Description

Our basic model is **odor-free, regionally manufactured**, completely **chemical-free**, and ideal for events, festivals, construction sites, and more.

It is mobile, easy to transport, and can be set up quickly anywhere. No suction is required for emptying, and neither electricity nor a water connection is needed for use.

The cabin is wind- and weather-resistant while providing full comfort. A skylight ensures sufficient daylight, and at night, a battery-powered motion-sensor light provides illumination. A coat hook, mirror, and hand sanitizer dispenser are included as standard features.

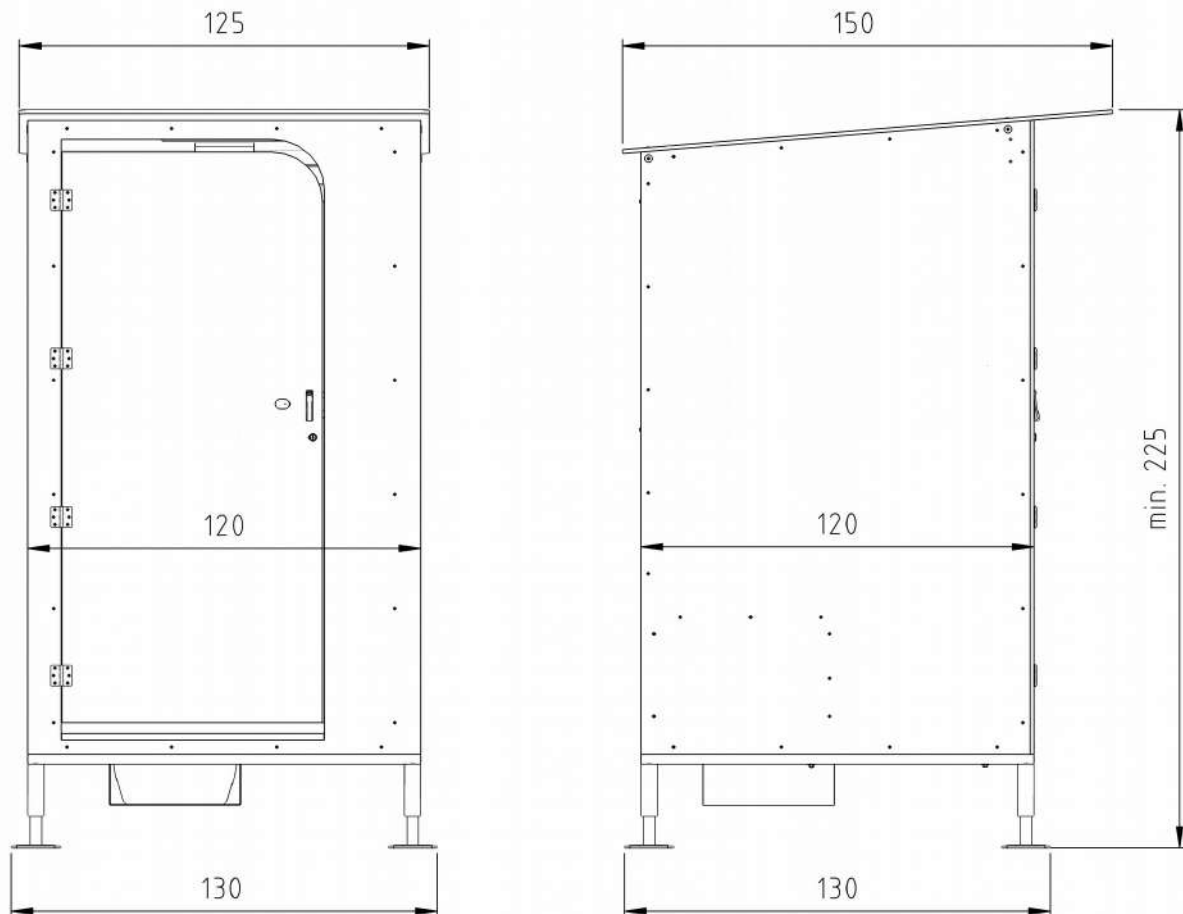

The materials used allow for easy cleaning, even with high-pressure or steam cleaners. Additionally, the well-thought-out design enables space-saving storage when disassembled.

### The following services are always included in the price

- Assembly and disassembly service, if possible
- Initial supply of toilet paper and hand sanitizer
- Initial filling with sawdust
