öKlo Mini

Description

Our smallest composting toilet is **regionally manufactured** using high-quality materials and serves as a full-fledged replacement for conventional water toilets.

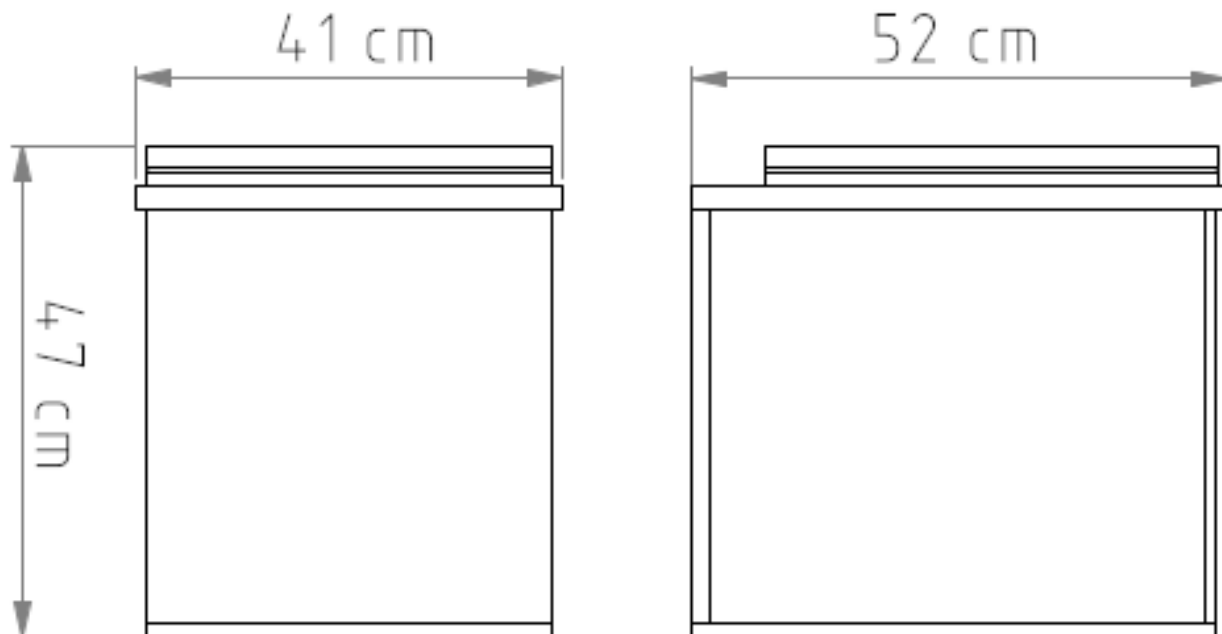

Thanks to its compact design, the öKlo Mini is versatile and easy to transport, making it ideal for camping trips, permanent installation in caravans and motorhomes, or even home use.

The toilet operates without electricity or water, making it the perfect solution for spaces without water or sewage connections.

The materials used allow for easy cleaning, even with a steam cleaner.
